As a provider, I know that PrEP is one of the most powerful tools we have to prevent HIV, and yet the very women who need it most are the least likely to be offered it.

I know that I am,
you are, we are...
HIV possible!

Communicating about sexual health with your sex partner is important. Here are some conversation starters.

"We can enjoy sex more if we know it's safer."

"I want us to have healthy and pleasurable sex."

"Have you ever heard of PrEP?"

"Did you know you can take an HIV self-test in the comfort of your own space?"
